Role Profile

Job Title

Industrial UPS Sales Manager

Division

Industrial Sales

Reporting to

Business Unit Director or Senior Sales Manager

Location

Hybrid with regional responsibility.

Why you're our kind of person

We are looking for people who are driven by doing the right thing for our customers. We operate in an agile fast paced environment, and we are always looking forward, improving, never settling, and wanting to be the difference for our customers. It's an exciting time to join the energy industry as we seek to reduce our reliance on fossil fuels and our ambitions present a tremendous opportunity. We work hard to deliver, and there's a lot to do, but the ability to make an impact in our business is significant. So, if that resonates with you and you want to love our customers as we do then come join a team of like-minded people.

What you'll do**Duties**

- Manage customer expectations regarding completion of enquiry / tenders.
- Review, comment and negotiate commercial terms and conditions including credit requirements.
- Discuss and review initial proposals regarding technical requirements of clients specification.
- Advise on best fit on technical products using existing technologies for AC UPS, DC Chargers and batteries.
- Understand and be able to interpret requirements for Installation, commissioning and maintenance.
- Support the tendering engineer and provide guidance on margins and targets prices to maximising margins/profit.
- Attend site meetings and complete surveys where necessary
- Attend, promote and represent Dale Power Solutions at events/trade shows
- Provide monthly reports and presentations alongside the Industrial Sales team.
- Maintenance of cost make up sheets and price lists for all products except spares and services.
- Make recommendations on product development and pricing as appropriate.

What's important to us

Person specification
Qualifications
Experience

- Experience with the Standby Power Industry or similar industries such as switchgear would be advantageous.
- Understanding of power electronics.
- Be able to produce tenders / quotations would be beneficial.
- HNC or higher desirable or similar relevant experience

Building careers

We want all our colleagues to grow and build careers with Dale.
We invest in our people for the future.

Many of our team members have been with us for over 30 years and some of our management team began their careers as apprentices. As we have grown so too have they and that knowledge is passed down as our team develops and evolves.

No two days are the same and variety is a key part of life for our team at Dale. There's always an opportunity to learn new skills and progress your career. We want to be a great place to work that is diverse and inclusive which is why we focus on supporting people and their development.

Teamwork is where it starts

As a solutions business, teamwork is our bedrock. From our design and project management teams to the engineering team and customer service, all our teams work together to not only deliver the best customer experience possible but to support their colleagues both day-to-day and with their long-term career aspirations.

Our values

Do the right thing

Be the difference

Love our customers

Never settle

Look forward

Our values are the guiding principles that define how we do things here at Dale. We look for colleagues to share these values when joining the team.

Do the right thing

It's what we do when no one else is looking that defines us. For us, doing the right thing means being accountable for our actions and giving the highest level of attention, respect and consideration to everyone, all of the time.

We want Dale Power to be good to work both with and for. By always doing what's best for our customers, our colleagues and our company, we will build even greater trust and confidence in our brand. And it'll make us even better people to do business with. This also means being commercial – we won't over engineer and will strive to deliver the right solutions for the right price

Be the difference

The knowledge, skill and experience our people have make us unique. And we believe that every individual has within them the ability to lead by example, inspire those around them and be the difference between ordinary and excellent.

Whilst we are a collective of exceptional talents, we believe that our potential is greater than the sum of our individual skills. By taking responsibility the quality of our own work and pride in what we deliver as a team, we build not just better products, but a better business. For all of us.

Love our customers

We recognise that our customers trust their hard-earned budgets in our ability to help protect their business. In return, it's our duty to repay this trust by making their needs our priority. That's why every decision we make - and every outcome we measure - must be grounded in how well we serve our customers.

Keeping customers happy is the key to our success now and in the future - so we must show them how much they matter to us. Put simply: if we love our customers as much as we can, they will love us back.

Never settle

We're driven by trying to find solutions to what's in front of us. We are passionate and courageous in our decision making and restless in our pursuit of solving our customers problems. That means setting high standards, being sticklers for quality – and never settling for 'good enough'.

If you need inspiration to go above and beyond, look around you. We work with brilliant people who do exceptional things every day. And that, in itself, is an excellent thing.

Look forward

We've been around for a long time. We've seen and learned so much, and our experiences give us a unique pedigree. Our rich heritage gives us stability. But the future brings us new opportunities.

As the world strives towards net zero and organisations seek to secure their energy supplies, the curiosity that comes from always asking 'what's possible' means we are well placed to support our customers as they seek partners to help in managing their changing energy needs.

And that's a challenge we look forward to.
